OUR SERVICES

01

Human Firewall Workshop

For: Corporate teams · Manufacturing units · SMEs

The most in-demand programme. Converts employees from a security liability into your first line of defence through live phishing simulations, real Indian fraud case studies, and hands-on awareness drills. Delivered on-site or virtually.

02

Cybersecurity Audit & VAPT

For: SMEs · MSMEs · Compliance-bound businesses

Comprehensive vulnerability assessment and penetration testing across networks, APIs, web applications, and cloud environments. Includes a risk-rated report with remediation steps. CERT-In compliance readiness included.

03

Website Vulnerability Assessment

For: SMBs · E-commerce · Startups

OWASP Top 10 coverage, risk rating, and actionable fixes for your website and web applications. Post-assessment consultation with your development team included.

04

DPDP Act Compliance Advisory

For: All sectors · HR & Legal · Manufacturing

India's Digital Personal Data Protection Act 2023 creates binding legal obligations for every organisation that handles personal data. We conduct readiness audits, identify gaps, and guide your team to compliance.

05

Digital Safety Seminar — Schools & Colleges

For: Schools · Colleges · Universities

Age-appropriate, interactive cyber safety sessions for students from Class 6 onwards — covering online fraud, cyberbullying, deepfakes, social engineering, and digital identity. Faculty development programmes also available.

06

Ethical Hacking Training — CEH Foundation

For: IT professionals · CS/IT students · Security analysts

EC-Council accredited CEH v12 programme with 100+ hands-on labs using Kali Linux, Metasploit, Nmap, Wireshark, and Burp Suite. Covers footprinting, system hacking, web application security, and social engineering.

07

Executive Cyber Resilience Advisory

For: C-suite · Founders · Board members

Strategic cybersecurity briefings for leadership teams. Covers business continuity, ISO 27001 readiness, incident response planning, and regulatory exposure under Indian law.

08

ISO 27001 & CERT-In Readiness

For: Enterprise · Government supply chain · Regulated sectors

End-to-end advisory for organisations pursuing ISO 27001 certification or CERT-In audit compliance. Includes policy drafting, controls implementation, and pre-audit verification.

OUR TRAINERS

HARDIK PATEL

Lead Trainer & Cybersecurity Consultant

7+ Years Experience

CEH v12 · EC-Council USA · VAPT Practitioner

Hardik is a Certified Ethical Hacker (CEH v12) with over 7 years of hands-on experience in penetration testing, vulnerability assessment, and cybersecurity awareness training. He has personally delivered 250+ sessions across manufacturing companies, schools, colleges, corporate teams, and government associations in Pune, PCMC, and Mumbai. Every engagement is led personally — no junior trainers, no resold curriculum. Hardik translates real-world attack techniques into practical, actionable habits that non-technical audiences immediately understand and apply.

JASMIN DAWADA

Senior Cybersecurity Trainer & Consultant

32+ Years Experience

CEH · EC-Council USA · Defence Cell Specialist

Jasmin Dawada is a seasoned cybersecurity trainer and consultant with over 32 years of industry experience. Specialising in CEH-level training, penetration testing, and corporate cybersecurity workshops for defence cells, government bodies, and educational institutions across India. Based in Thane, Mumbai, Jasmin brings unmatched depth in network security, web application testing, and large-scale training delivery — augmenting iTechFixr's capability for complex and high-security engagements.

INDUSTRIES WE SERVE

| | | |
|--|---|--|
| Manufacturing & OT SCADA/OT security, supply chain protection, invoice fraud prevention. | Pharmaceutical & Labs IP protection, access control audits, WHO-GMP & FDA 21 CFR controls. | Hospitals & Healthcare DPDP patient data compliance, medical device isolation, EHR audits. |
| IT & SaaS Startups API security, cloud IAM audits, SOC2 support, developer protection. | Education — Schools & Colleges Student digital safety, cyberbullying prevention, faculty briefings. | SMEs & MSMEs Human firewall training, VAPT, DPDP compliance at SME budgets. |

WHY ITECHFIXR

| Differentiator | What It Means for You |
|-------------------------------------|--|
| Practitioners, Not Resellers | Every session is led personally by a certified ethical hacker — not a junior trainer reading from a vendor deck. |
| India-Specific Content | All training uses Indian fraud cases, UPI scams, WhatsApp attacks, and PCMC/Pune context — not generic global content. |
| Pune & PCMC Based | On-site delivery without travel overhead. We come to your factory, school, or office. |
| Flexible Formats | 1-hour awareness sessions to 40-hour CEH programmes. On-site, virtual, or hybrid. |
| Compliance-Aware | All programmes are mapped to CERT-In guidelines, DPDP Act 2023, and ISO 27001 requirements. |
